Soor Are,

I am pleased to confirm your appointment as a DCI Fellow at the Conter for the Study of Intelligence beginning in May. I view the Center as an important vehicle for looking at the long-range prospects for intelligence and for looking objectively at emreelves and our perference. It also provides an opportunity for carefully selected intelligence officers to enhance their professional competence through study of key issues confronting the intelligence Community today. Your research on mational occurity decisions will address an issue of critical importance to the future of the Agency and the Community.

Again, my congratulations on your selection for this distinct honor, and my best vishes for success in your studies. It is my expectation that you will find your work at the Conter profitable from a career standpoint. I look forward to seeing the product of your research.

Yours.

/s/ Stansfield Turner
